Risk Beyond: Journey to a New Frontier

Digital Experience Conference

It is almost two years that we faced unprecedented time. The pandemic crisis shaped us on how to adapt quickly to the new normal. In a year full of surprises and uncertainties, we urgently need to find a way to thrive in our new journey. There is an aspiration needed to be addressed by many organizations. Harnessing the power of data and encourage critical thinking among young talents could be one of many ways. This could help us to develop risk talent for the future that will eventually help us thrive. A fortified risk culture also plays an important role for us to be resilient in this disruption era. The ability and agility to adapt to a new frontier will enable us to conduct a new practice of Governance, Risk Management, and Compliance (GRC) in the sea of countless possibilities. These uncertain times also reminds us not to stop looking for ways to rise from adversity, embracing what lies ahead, and help the vulnerable. Understanding what has happened, what is happening today, and what could happen tomorrow, allows you to adapt and be innovative to create better solutions. The parameter could be the processing time that runs faster, less energy and space usage, and cost-efficient.

Risk Beyond 2021 is the eleventh International Conference in Enterprise Risk Management presented by ERMA. It is designed to provide risk management practitioners around the world an extensive insight into various GRC issues that organizations face towards 2022 and beyond.
